WELCOME TO ALGEBRA RA!

I am looking forward to getting to know your child this year. Each month you can expect a monthly newsletter from me, outlining important dates and a brief overview of what students will be learning.

A LITTLE ABOUT ME

My name is Kayla Stuber and I will be your child's math teacher this year! This is my fifth year teaching, and my first year at Akron CSD. Previously, I worked at Amherst Middle School, co-teaching in both Math and Science 7 and at Rochester Academy Charter School teaching Algebra 2. I am so excited to return to teaching high school math!

As their first assignment, students are required to have their guardian sign the class syllabus. It will be their first assignment, due on the second day of school. Students will have the option to sign-out a calculator to keep at home if they do not have one.
