

Akron Central School District

In Pursuit of Excellence

*Patrick D. McCabe
Superintendent of Schools*

November 3, 2021

Dear Akron Parents:

As you may be aware, the Food and Drug Administration advisory committee has approved the Pfizer COVID-19 vaccine for children from the ages of 5 to 11 years old. To gauge the level of interest for this vaccination and possibly provide a clinic in our area, the Erie County Department of Health (ECDOH) has developed an interest survey and asked school districts to send it to families.

The survey can be found on our website or [simply use this link](#). Please complete the 2 question survey by Wednesday, November 10, 2021.

Please understand that this is just an interest survey and not a registration process for the vaccine. That said, we encourage all families to participate in the survey so that the local and state departments of health, as well as elected officials, can have a clearer understanding of our community's preferences toward vaccination of school-age children.

More information on the vaccination clinics and the outcome of the survey will be provided as soon as possible. We thank you again for your continued support, cooperation, and patience.

Sincerely,

Patrick D. McCabe
Superintendent
